Jessica commeau project proposal

skills

Programmer   C, visual, java, html, css

Unity 6 years

3d design 1 year

Processing 2 years

Arduino

- Virtual reality today
- What we have now
- Whats next ?

Virtual reality + Connect
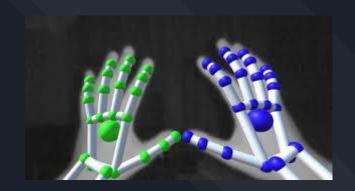

- No controllers needed
- More hands on
- No boundaries

- More life like interactions

Changes in interactions for VR

-Body language

Finger tracking

1 step closer to mixed reality

Things needed
-unity
-connect
-virtual reality

-A better way to interface with people

-A better way to interact with our environment

Society changing lets create new types of face to face interaction

Questions ?
